DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a large frame house of assymetrical design. The front portion consists of four bays under a hip roof. To the rear of this is a large gabled wing forming an L-shaped house. Across the front and part of the north facade is a one story porch supported by fluted Doric columns. In front of the door and extending in front of the porch is a gabled pediment supported by additional columns. Over three of the bays on the front is a gable. An unusual feature is the second story window on the northeast corner of the front wing. This projecting window has three sides, the corners meeting at right angles. An extension of the hip roof forms a roof over this window.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This house is an interesting example of early 20th century architecture and was among the earliest houses to be constructed on Oakley Street. It was built by John Mills, whose brother Samuel built 311 around the same time.
